

## WHERE ARE THEY NOW?

---

Taken in the order that their names appeared on the Mount Royal Hotel stationery, here is a summary of the happenings of the Nucleus of the Cajal Club.

Wendell J. S. Krieg - After being honored as the Founding Nucleolus, a post that he filled for 5 years, and as the continuing "guiding light" of the Club at the 1974 Meeting in Cleveland, Dr. Krieg retired after many years of service to Northwestern University Medical School. Word has it he may be found in Evenston, Ill. - or on the Cape (Cod) - or raising bromeliads in south Florida.

E. Horne Craigie - Although he does not seem to have attended meetings of the Club other than the founding meeting and the meeting of 1962 in Minneapolis where he gave the Banquet Address on his recent visit to Spain (see some of his notes on that trip in his Recollections on page 8), the Axone has continued to be a loyal and faithful supporter of the Cajal Club. At last word Dr. Craigie was alive and well in Toronto.

Pinckney J. Harman - Apical Dendrite Supreme from 1947 to his death in 1966 (See "The Cajal Club, 1947-1966. The Harman Era" by George Clark in Vol. I of these Proceedings, and Figure 1, page 3 of this Volume).

Clement A. Fox - Founding Nissl Body and the 2nd Nucleolus from 1952 to 1954. Clem is now retired as Chairman of the Department of Anatomy at Wayne State, but remains active in research and Club affairs.

R. Frederick Becker - Nucleolus from 1966 to 1967. Fred is presently in the Dept. of Anatomy, East Carolina School of Medicine, Greenville.

George Clark - Nucleolus from 1961 to 1962. George is in the Department of Anatomy of the Medical University of South Carolina, Charleston.

James H. Graves -

David S. Jones - Nucleolus from 1964 to 1965. Dave is in the Department of Anatomy at West Virginia School of Medicine, Morgantown.

~~~~~

A. A. Pearson - Tony in in the Department of Anatomy of the University of Oregon Medical School, Portland.

Duncan C. Hetherington - Seems to have attended no further meetings. He retired some years ago, and died in 1974.

Arthur V. Jensen - "Bullmoose" attended regularly until he left the post of Dean of Men at the Flower Medical School. Since then he seems to have been untraceable.

Grant L. Rasmussen - Nucleolus from 1956 to 1958. Grant is now retired after many productive years at the NIH.

Charles Berry - Nucleolus from 1958 to 1960. "Chick" died suddenly in 1959.

Talmage L. Peele - Talmage is in both the Departments of Neurology and Anatomy at Duke University School of Medicine, Durham.

Dr. Raymond Truex  
Department of Anatomy  
Temple Univ. School of Medicine  
3400 N. Broad Street  
Philadelphia, Pa.

Dear Ray:

I have received the check from Mrs. Harmon which you forwarded, and have opened ~~it~~ a checking account in the name of the Cajal Club at Lake Shore National Bank. A duplicate receipt is enclosed.

There are blanks to fill out with the names and signatures of the officers. I don't suppose we have to bother the "retiring officers". Please send it on to Fred Becker, who can then send it on to me.

As soon as I get some time I intend to make up some formidable looking dues bills on my printing press and send them around to the membership. I may have to pay for secretarial aid, as I am not head of the department so am unable to demand the extra from our secretary.

They suggested a savings account, but I thought it would be more politic to be able to show checks for all expenditures, just in case embezzlement is suspected.

In the bond,  
*Wendell*  
Wendell J. S. Krieg  
Acting Secretary, Cajal Club

*Dear Fred - Please sign  
as indicated and  
return forms to Wendell.  
Kindest personal regards  
Ray*
