SANTIAGO'S BROTHER

Wendell J. Krieg (1991)

Beginning in 1991 the text of the Krieg Cortical Kudos Awards was published in the journal *Cerebral Cortex*. This was made possible by a generous offer of cooperation from Dr. Pasko Rakic the co-editor of this journal, a long-time member (and Past President) of the Cajal Club, and a 1989 co-winner (with Drs. P. S. Goldman-Rakic and E. G. Jones) of the Cortical Discoverer Award. These articles include a general introduction to that year's awards, a description of the contributions of each awardee (accompanied by their address), and a picture of the awardees. Each article is authored by the Nucleolus (President) of the Cajal Club for that year. Listed here are the full references for these articles from 1991 through 1995.
