

THE MISSING PROGRAM, 1984

Dr. Glenn Russell noted, in a letter to the Apical Dendrite in 1985, that for some mysterious reason the 1984 program did not appear in the Proceedings of the Cajal Club, Volume 3, 1985. Since this particular Proceedings should have contained the 1984

program it was Dr. Russell's intention to include it in the next proceedings. The 1984 Cajal Club Program is summarized here, not only to complete the record, but to respect Dr. Russell's intention.

CAJAL CLUB PROGRAM

Westin Hotel, Seattle, Washington
Grand Ballroom II
April 8, 1984

- 8:30-12:00 *Symposium of Selected Topics Related to the Research of the Late Stephen B. Edwards.* Organizer and Moderator: Dr. John K. Harting, Department of Anatomy, University of Wisconsin-Madison.
- 8:30- 9:10 A.M. Dr. Barry Stein, Department of Physiology, Medical College of Virginia, Richmond, VA. *The Integration of Multimodal Information in the Superior Colliculus.*
- 9:10- 9:50 A.M. Dr. Michael F. Huerta, Department of Anatomy, Vanderbilt University, Nashville, TN. *The Connectional Organization of the Superior Colliculus.*
- 9:50-10:30 A.M. Dr. Robert Beckstead, Department of Anatomy, University of Virginia, Charlottesville, VA. *Organization of Visual Cortical Input to the Superior Colliculus.*
- 10:30-11:10 A.M. Dr. Craig Henkel, Department of Anatomy, Bowman Gray School of Medicine, Winston-Salem, NC. *A More Specialized Midbrain Reticular Formation.*
- 11:10-11:50 A.M. Dr. George F. Martin, Department of Anatomy, Ohio State University, Columbus, OH. *Evidence for Connectional Heterogeneity in the Brainstem Reticular Formation.*

OPEN DISCUSSION LUNCH

- 1:45- 4:00 P.M. *Symposium on Cell Biology of Sensory Receptors.* Organized by Drs. Margaret Byers and Helen Sherk, Departments of Anesthesia and Biological Structure, University of Washington, Seattle, WA. Moderator: Dr. Margaret Byers.
- 1:45- 2:00 P.M. *Introduction - Comparative Studies of Sensory Receptors.* Dr. Margaret Byers, Departments of Anesthesiology and Biological Structure, University of Washington, Seattle.

- 2:00- 2:30 P.M. Dr. Lawrence Kruger, Department of Anatomy, University of California, Los Angeles, CA. *Structure and Function of Dermal and Epidermal Mechanoreceptors.*
- 2:30- 3:00 P.M. Dr. A. J. Hudspeth, Departments of Physiology and Otolaryngology, UC at San Francisco, CA. *Transduction and Frequency Tuning by Hair Cells of Inner Ear.*
- 3:00- 3:30 P.M. Dr. Harold H. Zakon, Department of Zoology, University of Texas at Austin. *Plasticity and Frequency Tuning in Electrosensors.*
- 3:30- 4:00 P.M. Dr. Ann Bunt-Milam, Department of Ophthalmology, University of Washington, Seattle. *Vertebrate Rods and Cones: Morphology and Biochemistry.*
- 4:00 P.M. BUSINESS MEETING
- 5:30 P.M. SIXTEENTH ANNUAL PINCKNEY J. HARMAN MEMORIAL LECTURE
DR. HARVEY KARTEN, Department of Psychiatry and Behavior Science,
SUNY Stony Brook
Peptidergic Systems in the Retina Central Visual Structures.
- 6:30 P.M. SOCIALIZER (Cascade Ballroom I)
